

2011 DOHB MEETING

ITALY SECTION

2011 DHOB MEETING ITALY SECTION

FY 2010-2011 MAIN ACTIVITIES

- Section start-up and registration according to Italian law
- Creation of ASME Italy Section website: www.asme.it
- Organization of PED-ASME Conference to be held in Genova, 20-21 October 2011
- Participation to the win-back program
- Established regular communication with all section members started in April 2011.
- Section presentation to other engineering associations (AIAS, EYE, NAFEMS, IIT)
- Participation to the LTC2011 in Dallas (March 2011)
- Preparation of an article for an Engineering Magazine regarding the ASME Italy Section creation and objectives (to be published next June)

2011 DHOB MEETING ITALY SECTION

ASME ITALY SECTION WEBSITE

ASME Italia promuove l'Arte, la Scienza e la Pratica delle discipline Ingegneristiche in Italia in stretta collaborazione con ASME International e le altre Associazioni locali ed internazionali, operanti nei medesimi settori.

Join us in Italy
for the Conference on
PED Requirements and
ASME Code

Location: Magazzini del Colone • Genova, Italy
Date: 20-21 October 2011

ASME and the ASME Italy Section are bringing to Italy "PED Requirements and ASME Code: an overview of correlations and differences", a Conference aimed at discussing the correlations and differences between the PED requirement and the ASME Code.

The following topics will be discussed during the two days of conference:

- PED Safety Essential Requirements when designing, fabricating, inspecting and erecting according to ASME Code (ref. STRIPT-002 ASME Section I PED Guide)
- Comparison of Pressure Vessel Codes ASME Section VIII and EN13445. Ref. ASME STP-PT-007 and Comparative Study of Pressure Equipment Standards
- Power Plants and Process Plants: a comparison between Piping Codes ASME B31.1, ASME B31.3 and EN13445
- Nuclear Plants and Components

Exhibition and Sponsorship opportunities available! Showcase your company. Present products, services and innovations. Meet directly industry leaders and experts in the field.

Enjoy the round table discussion with experts from ASME, industry, companies and academia.

2011 DHOB MEETING ITALY SECTION

FY 2011-2012 PLANNED ACTIVITIES

- Have the Conference PED-ASME on 20-21 October
- Create a regular (monthly or bi-monthly) news letter
- Section participation / presentation: ASME Courses in Turin (June 2011), EVU Italia Workshop (Turin, 17 June 2011), AIAS Congress (Palermo, 7-10 September 2011), AIMETA (Italian Association for Theoretical and Applied Mechanics, Bologna, 12-15 September 2011)
- Start creating thematic work groups
- Promote students participation
- Promote award for young researchers in Mechanical Engineering (joint with AIAS)
- Support RAAD 2012

2011 DHOB MEETING ITALY SECTION

CONFERENCE PED-ASME PROGRAMME

- PED Safety Essential Requirements when designing, fabricating, inspecting and erecting according to ASME Code (ref. STP/PT-002 ASME Section I PED Guide)
- Comparison of Pressure Vessel Codes ASME Section VIII and EN13445. Ref. ASME STP-PT-007 and Comparative Study of Pressure Equipment Standards
- Power Plants and Process Plants: a comparison between Piping Codes ASME B31.1, ASME B31.3 and EN13480
- Nuclear Plants and Components

2011 DHOB MEETING ITALY SECTION

THANK YOU!
