Oggetto: Congratulations - Outstanding Program Award
Categorie: ASME-Italia

Hello FRANCESCO ALICINO:
Chair, Italy Section

cc: [Memis Acar](#), District H Leader

Congratulations! Your entry in the Special Event category of the ASME Outstanding Program Award (OPA), sponsored by the Knowledge & Community's Programs & Activities Board, was judged **the best submittal in 2011-12.**

We are pleased to award the Italy Section a cash prize of \$250.00 for your winning entry. I have sent a request to K & C staff to process the request and send the direct deposit to your Section's checking account. However, before they can proceed with this, they need your bank's routing number and account number. Please send that information directly to Jessica Albert (albertj@asme.org) with a copy to Vince Dilworth (dilworthv@asme.org).

Your entry has been sent to the Program & Activities Board's Unit Best Practices Committee for inclusion in their files. They will use the information contained in your entry to develop a "Best Practice Example" for sections to use to hopefully put on similar programs. They may contact you for further information to flush out the example.

We have learned many valuable insights on improving the Outstanding Program Committee and as soon as we can incorporate them into the system, we will launch the 2012-13 OPA.

Again, Congratulations and keep up the great work!

Lynden Davis
Chair, Outstanding Program Award Committee
Global Communities Rep to Programs & Activity Board
