LOCATION

Napoli is a well-known place, having monuments built during more than 2500 years. Before the Unit of Italy (1860), it was the Capital of the Kingdom of the two Sicilys (comprising part of the middle and all the southern Italy), the third economic power in the Europe of those ages. The city is full of evidences of its history; moreover it is placed in one of the most beautiful gulfs of the world. Lovely places like Capri, Pompeii and Sorrento, just to make examples, are very near and easy to reach. In September the weather is fine, sunny temperatures above 20°C.

ACCOMMODATION

In Napoli there are many hotels in all the categories. The average cost for a 3-star hotel is about 70 Euro. Early reservation is recommended by contacting directly hotels or through the RAAD Secretariat. A list of hotels will be sent to the authors and to registered persons.

TRAVEL INFORMATION

Napoli can be reached easily both by train, plane, ship and by car. There are hourly trains from Rome and Milan to Napoli; the trip takes approximately 1h:10m from Rome.
